

"In order to have a real relationship with our creativity, we must take the time and care to cultivate it".

- Julia Cameron

Introducing RoundTable

Introduction

Collaboration might seem too many like something insignificant and nebulous or as a byproduct resulting from the interaction required to accomplish a specific task. However, it is when we work to enhance our collaboration and, as a result, our organizational creativity, that fundamental change in the business processes and practices occur.

It was organizations like Apple, Wal-Mart, and IKEA that made collaboration a central element of their culture. It was this conscious awareness of the value of effective collaboration and deliberate efforts to enhance it that allowed these organizations to be recognized as the thought leaders in their industries.

Any organization of any size can benefit from making a conscious and deliberate effort to engrain collaboration as a cornerstone of their culture.

RoundTable
